

Cyber Security Partners

Cyber Assurance Services

Cyber MOT

Cyber MOT+

Services

Our cyber assurance services are intended for businesses who would like some reassurance about their information security. These services look at key issues that keep business owners awake at night.

For example, we explore:

- Who has access to my data?
- Do my staff know what to do in a crisis?
- How secure is my business?

Cyber MOT

A high-level review of your processes and procedures, covering the main security concerns of all businesses.

Cyber MOT+

An in-depth review of your policies and procedures, so we can get to the heart of your issues.

Cyber MOT route map

Talk to
our experts

1

We review using
cyber best practice

2

We assess your
maturity score

3

We provide you
with a report of
recommendations

4

We discuss our
recommendations
with you

5

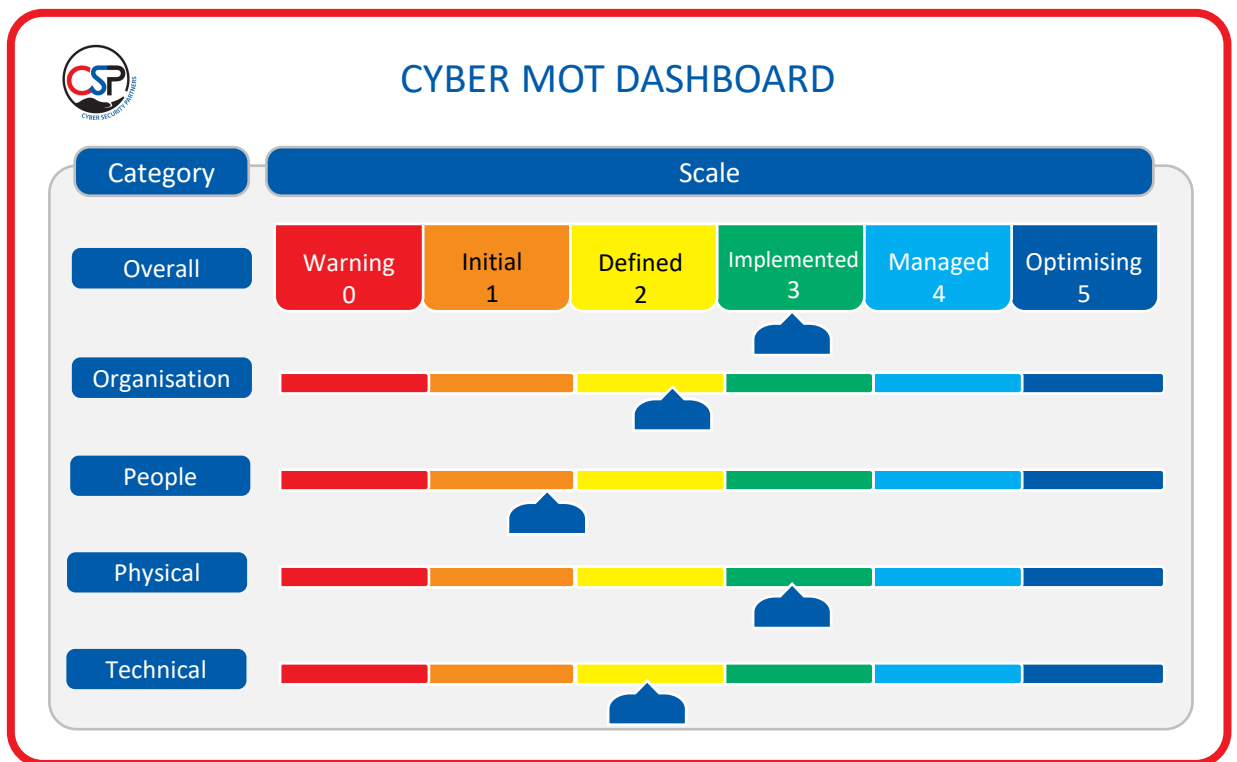

We will ask how you currently manage the security of your business and discuss your concerns.

The findings will be scored on a maturity scale from 0 to 5 based on our knowledge and expertise of common cyber business practices.

You will receive a report containing:

- dashboards showing where you are on the scale
- recommendations for improvement
- what you do well.

Benefits

The report will be written in plain English rather than technical jargon. The findings and recommendations will be written for a business audience, which will help you understand your current cyber security position. The report will highlight areas for improvement.

Our recommendations will be tailored to your business and budget. These will include the use of **free controls** that can be implemented and managed by your staff.

Once you have received your report, we will arrange a meeting to discuss:

- our recommendations
- any queries you may have
- next steps to address gaps and improve your cyber security.

Testimonials

Independent advice

CSP are an independent consultancy. Our recommendations use industry best practices and are based on years of experience.

"I would recommend CSP to any business looking for assurance that their security systems are as robust as possible"

CSP customer quote.

"CSP's pragmatism from the start was a massive help and very reassuring."

CSP customer quote.

Cost effective

CSP recommendations are pragmatic and tailored to meet your budget.
